For the ENTERTAINMENT of the
CURIOUS

Will be exhibited at the Library-Room, in Union-Street, a course of
EXPERIMENTS, in that instructive and entertaining branch of
Natural Philosophy, called

ELECTRICITY,

To be accompanied with lectures on the nature and properties of the
ELECTRICK FIRE,

By **WILLIAM JOHNSON.**

THE course consists of two lectures, in the first of which all the properties of that wonderful element, as far as the latest discoveries have made us acquainted therewith, and the principal laws by which it acts, are demonstrated in a number of curious experiments, many of which are entirely new. Among many other particulars will be shown that the electric fire, commonly produced by the friction of glass, and other electric substances, is not created by that friction, but is a real element or fluid body diffused through all places in and near this earth; that our bodies contain enough of it, at all times, to set a house on fire. Also many errors, that have crept into this branch of natural philosophy, will be expunged, and the true theory thereof established, on the solid foundation of reason and experiment.

In the second lecture this fire will be shown to be real lightning, from its constantly and invariably producing the same effects as lightning does; in proving and explaining which, most of the effects of lightning will be imitated by the electric fire, such as killing animals, melting metals, tearing and rending bodies through which it passes; together with many curious experiments, naturally representing the various phenomena of thunder storms, accounting for their causes, and explaining their effects. A practical method of preserving ourselves, our houses, and off the, from the destructive violence of lightning, will likewise be shown; the efficacy of which will be demonstrated by such indubitable proofs, from experience, as have not hitherto been exhibited to the world.

Those who desire to have their habitations effectually guarded from the fatal violence of one of the most awful powers of nature, (which which this colony in particular has been often dreadfully visited) may learn, from these lectures and experiments, more of the nature and properties of lightning than has been known to mankind until within these few years. They will, at the same time, have an opportunity of being fully convinced that the method proposed for their security, if put in practice, with proper precaution, will be attended with success; and consequently, that, instead of having any just objection thereto, from a persuasion of its being presumptuous, we have the utmost reason to bless GOD for a discovery so important and eminently useful. A prudent man foreseeth the evil, and hideth himself; but the simple pass on and are punished. Ps. cv. 22, 3.

As the knowledge of nature tends to enlarge the human mind, and give us more exalted ideas of the GOD of NATURE, it is presumed that this course will prove to many an agreeable and rational entertainment.

The first course will be on Tuesday and Wednesday next, and will be repeated on Thursday and Friday following; likewise on the corresponding days in the three following weeks, provided the requisite dryness of the air will permit.

Tickets to be had at Dillon's and Backhouse's taverns, and at Peter Timothy's, at 40 s. for both lectures.

N. B. No person will be admitted without a ticket by paying at the door, as the inconvenience is great, and must be obvious to every one.

Said JOHNSON likewise proposes to exhibit a course of experiments (to be accompanied with an explanatory lecture) in that eminently useful branch of natural Philosophy, called

MAGNETISM.

IN this course all the principal properties of the magnet or loadstone will be demonstrated in a number of curious experiments, and a rational theory of magnetism founded thereon, by which the polar direction and dip of the magnetic needle may be naturally and rationally accounted for.

The use and application of this most surprising natural power to the important purposes of navigation will be shown; the defects of the common sea-compasses will be particularly considered and demonstrated; and the latest improvements which the celebrated Dr. Knight has made in that useful instrument, by which it has attained its utmost degree of perfection, will be explained; a knowledge of which is of the utmost importance to all persons concerned in trade and navigation.

The course will consist of upwards of twenty experiments, amongst which are those performed by Dr. Knight before the Royal Society, with many others equally surprising and instructive; to be performed with several natural magnets, together with large magnetic steel bars of a surprising degree of strength, which will give a touch four times stronger than the best loadstones yet known.

The lecture to begin as soon as thirty persons have subscribed. Subscriptions are taken in by the operator, at the Library room, in Union-Street, where tickets will be given out at the time of subscription, at a dollar each.

STRAYED from the subscriber, on Friday last, a bright bay horse, upwards of 14 hands high, with both his ears cropped, and a docked tail. Branded on the mounting shoulder H S, and on the off shoulder F S. Whoever finds the said horse, and will deliver him to me, shall be handsomely rewarded.

EAST-FLORIDA, &c.

WHEREAS by the definitive treaty of peace, concluded at Paris the tenth day of February, one thousand seven hundred and sixty-three, between our most gracious Sovereign Great on the third KING of GREAT-BRITAIN, &c. the French King, and the King of Spain, the whole country of FLORIDA, was ceded to his Britannick Majesty; AND WHEREAS, by the twentieth article of the said definitive treaty of peace, his Britannick Majesty did, amongst other things, agree that the Spanish inhabitants, or others, who had been subjects of the Catholic King, might sell their estates, provided it should be to his Britannick Majesty's subjects. NOW WE, JOHN GORDON, of Charles Town, in the Province of South-Carolina, merchant, and JAMES FISH, of the town of St. Augustine, in East-Florida, do hereby give this public notice to all persons settling, and intending to settle in Florida, that we, for ourselves and others, all subjects of his Britannick Majesty, in the months of October and November, immediately after the ratifying the said treaty of peace, confiding and relying on his Majesty's Royal stipulation therein, and above mentioned, did purchase from several of the subjects of the crown of Spain, then residing in Florida, for a valuable consideration, and had in due, lawful and proper form, and by proper deeds and conveyances in law, conveyed to us, various and extensive tracts of land in the said country, and in that division thereof now called East Florida, of which lands the said Spanish subjects before, and at the time of, ratifying the said treaty, were lawfully seized and possessed, according to the laws of Spain, as of their own private property, and the conveyances made to us as aforesaid, were on the first day of December, one thousand seven hundred and sixty-three, proved before the then British commander in Chief of East-Florida, certified under his hand and seal, and duly authenticated, and a notification and instrument declaring us, the said JOHN GORDON and JAMES FISH, to be the real and lawful purchasers and owners of these lands, under the hand of the Spanish governor and Royal officers of Florida, at St. Augustine, and the seal of their Contaduria, were issued, and the said instruments and conveyances, with plans of the several tracts of land thereunto annexed, were produced unto his Excellency Governor GALT, on or before the seventeenth day of November, one thousand seven hundred and sixty-four, and tendered at the public register's office, in St. Augustine, there to be recorded, that no person might plead ignorance, or be misled, in their application for, or settling on, lands in East-Florida; NEVERTHELESS, William Greening, Esq; Public Register, did refuse to receive or record in his said office the said conveyances, by order (as he said) of the said Governor, who has declared, that he would, on application to him in council, grant away these lands, in the same manner as if no purchase of the same had ever been made. WE DO THEREFORE, in this public manner, claim our right to the said lands, and enter our caveat and protest against the Governor of East Florida, his granting any part or parcel of the same: AND we do hereby in like manner caution and forewarn all persons whomsoever, from sitting down, settling on, or clearing any of the said lands, on any pretence whatsoever, without our leave and consent, as such person or persons may depend on our asserting our right, founded upon the faith of the said treaty, and on our pursuing to the utmost extent of the law, any trespassers on the said land; at the same time, WE DO DECLARE, for ourselves and the other proprietors, that we will give due encouragement to all persons that shall apply to us to settle the said lands, by virtue of, and under our right and title, on the most reasonable terms. And for the better information of all whom these may concern, a general plan or survey of our said lands may be seen in the hands of either of us, in Charles Town, or St. Augustine.

From the London Gazettes.

WESTMINSTER, Dec. 16.

THIS day, the Lords being met, a message was sent to the hon. House of Commons by Robert Quarms, Esq. Yeoman Usher of the House of Peers, acquainting them, that "The Lords, authorised by virtue of His Majesty's commission, for declaring his royal assent to several acts agreed upon by both Houses, do desire the immediate attendance of this hon. House in the House of Peers, to hear the said commission read; and the Commons being come thither, the said commission, empowering the Lord High Chancellor of Great-Britain, the Earls of Huntingdon, Marchmont, and Bristol, and several other Lords therein mentioned, to declare and notify the royal assent to the said acts, was read accordingly, and the royal assent given to the several acts under the London head.

Whitehall, Dec. 16. The King has been pleased to constitute and appoint the right hon. Robert Nugent, Soames Jaynes, Edward Elliott, George Rice, John Roberts, Jeremiah Dyson, William Fitzherbert, and Thomas Robinson, Esqrs. to be commissioners for promoting trade, and for inspecting and improving his Majesty's plantations in America and elsewhere.

FROM OTHER PAPERS.

FOREIGN INTELLIGENCE.

Montpelier, Nov. 20. Since Michaelmas we have had great rains, attended with storms. Last Saturday in the night we had a most terrible one, which lasted 24 hours, during which time there fell so great a quantity of rain that all the cellars in the town were filled with water, the pipes of wine were on float; some houses were undermined and thrown down, and bridges carried away by the torrent. At the same time the thunder was very dreadful. At Cante the chapel of the Penitents was thrown down, and two houses adjoining. At Baugues three houses met with the same fate; Balaruc has suffered very much; Pignan is ruined; and there is no road to go to Toulouse or to Cante.

Leghorn, Nov. 24. A courier has now brought a notice of five considerable bankruptcies which have happened at Marseilles, at a time when they were least expected.

Verfaille, Dec. 3. The King being extremely affected with the misfortune of his subjects at Martinico, has granted them an exemption from all duties and imposts for two years.

Hamburg, Dec. 5. Various are the opinions of people with respect to the affairs of Poland. Some pretend to have it from good authority, that Russia and Prussia will maintain their declarations in favour of the Protestants by force of arms; but others are of a contrary opinion, because the Diet of Poland cannot, according to law, be assembled longer than six weeks, and the declarations above mentioned were not delivered till after it had been sitting near a month.

LONDON, December 14.

They write from Gibraltar, that the Spaniards have for some time been busy in augmenting the fortifications of St. Roque, near that place, two hundred galley slaves having arrived from St. Sebastian's to forward the work.

DECEMBER 15.

Yesterday there was a levee at St. James's, after which there was a very grand council.

This day the following bills received the royal assent, by virtue of a commission from his Majesty.

The bill to prohibit or a limited time the exportation of corn, grain, meal, malt, flour, bread, biscuit, and starch; and also the exportation of low wines and spirits from wheat and wheat flour. The act to continue the act for allowing the importation of beef, pork, bacon, and butter, from Ireland, duty free, for a limited time.

The act to amend the act of last sessions for repealing certain duties in the British colonies and plantations in America upon certain East India goods exported from Great Britain, and for encouraging, regulating, and securing the British dominions in North America, as relates to the exportation of non-enumerated goods.

The bill for allowing the importation of wheat and wheat flour from any part of Europe into this kingdom, duty free, till the first of March next.

The bill for allowing the free importation of wheat and wheat flour from his Majesty's colonies in America, into this kingdom, duty free, for a limited time.

The bill for continuing the duties on malt, mum, cyder, and perry for the year 1767.

The bill for the better protection and security of all persons who have acted in pursuance of, or in obedience to, the late order of council for laying an embargo on wheat and wheat flour, and for discharging all proceedings against any persons for or account of the said embargo.

The bill for allowing the free importation of oats, oatmeal, rye, rye meal, &c.

The bill for obviating doubts which have arisen with respect to the taking of certain oaths by justices of the peace upon the issuing of any new commission, &c.

And three naturalization bills.

After the Royal assent to these bills, both houses adjourned for the holidays.

They write from Brest, that a large number of transports were fitted out there to carry over 10,000 troops, and a large quantity of naval and military stores for Monte Christi in Hispaniola.

We are informed that one branch of our manufactures, which the French propose to admit, in return for the allowance of Cambric, is that of Sheffield and Birmingham cutlery wares.

We are informed, that a Lottery of Quality lost nineteen hundred guineas at the game of Loo last Saturday.

Letters from Lisbon of the 14th of last month say, that a slight shock of an earthquake was felt in that city the night before, between nine and ten o'clock, but no damage accrued therefrom.

DECEMBER 18.

Both Houses of Parliament have adjourned to Friday the 16th of January.

The Marquis of Lorne, eldest son to the Duke of Argyll, is created a Peer of Great Britain, by the title of Baron Combe.

The wife of a shepherd at the village of Dollheim, near Konigsberg in Prussia, having been brought to bed of three live children, two daughters and a son, at an interval twenty four hours between each; and this unexpected interval in the poor man's family, having thrown him into great embarrassment, the Chamber of War and Domains, by command of his Prussian Majesty, have given orders for taking care of the mother and providing the children with proper nurses. The father is said to be turned of sixty by some years, and the mother in the fifty fifth year of her age; and that they have already several children married.

It is said Denny Rolle, Esq. has obtained a further grant of a considerable number of acres of land on the banks of the river St. John, in East Florida.

Yesterday there was a grand levee and council held at St. James's, at which his Majesty, the right hon. the Earl of Chatham, his grace the Duke of Grafton, the Secretaries of State, and several other Lords of the Privy Council assisted.

ham, his grace the Duke of Grafton, the Secretaries of State, and several other Lords of the Privy Council assisted.

Yesterday the right hon. the Earl of Chatham set out for Bath. Last week the King in council passed 42 grants of lands in East Florida, most of them to gentlemen of considerable fortune. It is observable, that no less than ten noblemen and fifteen members of parliament have already obtained grants, with intention to establish plantations in this promising colony.

This week several journeymen paper-stainers have been engaged to embark for Boston and Philadelphia, on good encouragement.

The following odd affair happened lately at a place in Hertford: A young lady being much indisposed, sent for an Apothecary in the neighbourhood to attend her, but as he was engaged with a great number of patients ill of the small-pox, and she lady never having had that distemper, a young Clergyman of the same town, who paid his addresses to her, came to London in his post-chariot and four, and brought back with him an eminent Physician, who speedily restored her to her former health, and so eloquently pleaded his cause, that he soon after married the lady, leaving the Clergyman in the lurch. She was possessed of a fortune of 40,000l.

It is now commonly reported, that his Majesty will visit his electoral dominions, next summer; and, that during the King's absence, her Majesty will be appointed Queen Regent, with a council to assist her.

They write from Berlin, that a body of Prussian troops have received orders to march to the frontiers of Poland.

At forty-five minutes after twelve this day, No. 45 was drawn a blank, to the great mortification of forty five persons, who had insured it forty five times over for a prize.

American Intelligence.

WILLIAMSBURG, December 11.

On Monday the 20th of October last there fell in Halifax county an amazing shower of hail, which was preceded by a great noise in the air. Many of the hail stones were as large as a pint bowl, and one measured five inches long an hour after it fell. The cloud arose in the north west, and had its direction to the south west. The trees are not only stripped of their leaves, but their boughs and twigs also, and appear more naked than they would have done in the middle of winter. The noise which preceded the shower, and the shower itself, which lasted near an hour, were so dreadful that many people began to think the last day to be at hand. It killed many fowls, and some hogs; and it is surprising it did not kill even cattle and horses.

NEW-LONDON, December 19.

The legislature of the colony of Rhode-Island, have passed an act, making it death for any person to counterfeit any British or foreign coin, or to pass the same, knowing it to be such. And that no part or cut piece of any coined money, shall be uttered, passed, received, or taken in payment, by any person, under the penalty of ten times the sum for which such piece of money shall have passed for, or received.

NEW-YORK, December 25.

The Earl of Halifax Packet, Capt. Boulderson, failed last night with the mail for Falmouth. With him go passengers, William Samuel Johnson, Esq; L. L. D. Agent for the colony of Connecticut, and Major Small.

And this day his Majesty's ship Cygnat, Capt. Durell, fails for Penfcola, with the Hon. Brigadier General Haldiman on board.

January 12.

After the deep snow which fell here the 29th of December, the weather continued severely cold till the 3d instant, and closed or filled up the creeks and rivers with ice. On the 4th it began to thaw and rain'd almost incessantly till the 6th, which melted and carried away almost all the snow and ice; since which we have had fine spring-like weather, the rivers and creeks are open and the small boats come as usual.

January 19. His Excellency Sir Henry Moore, our Governor, on the 9th instant, published a proclamation, appointing the courts of Chancery for this province, to be held in the City-Hall of this city, at the stated times following, viz.

For Motions, On the 2d Wednesdays in January and April, on the Wednesday before the last Tuesday in July, and on the second Wednesday in October.

For Hearings, On the 3d Wednesdays in February and March, and the 2d Wednesdays in August and December. Each sitting to continue from day to day, so long as the business requires it. And all officers and ministers of the court, and persons concerned are required to give due attendance.

On New-Year's day in the morning a poor man a stranger, supposed about 55 years of age, being at his lodgings in this city, a little in drink, fell down stairs about one o'clock; he was taken up again, and put into bed, and covered up warm, but no other application being made, he was found dead in the morning. He was a taylor by trade, and 'tis said came lately to Philadelphia from South Carolina, where he had a wife and children, and arrived in this city by land from Philadelphia, a day or two before his death. His name is unknown, notwithstanding all possible enquiry has been made.

We have terrible accounts from all parts, of the damage done by the floods and ice upon the late sudden thaw: From New-Haven, in Connecticut, we hear that all the bridges in that neighbourhood, were either carried away or rendered impassable. That Major, Capt. Venters, living there ready to sail for the West-Indies, loaded with live stock, cattle, horses, grain, lumber, &c. was by the ice driven on the rocks with such violence that the vessel was beat to pieces, and the whole Cargo entirely lost. The people were saved.

By a gentleman from Woodbury in Connecticut, we hear that the late cold weather began rather sooner there than here; they had a very severe frost on Saturday night the 27th of December, on Sunday the 28th it rain'd a little, and froze hard, on Monday evening it began to snow, and when the snow was about six inches deep, cleared up very cold, and continued so till Sunday night the 4th instant, when it grew warm, began to rain, and continued raining hard without intermission, till Tuesday night. That whole day the rain pour'd in such torrents that it seem'd rather like streams than drops, the like had not been remembered. The snow and ice were entirely thaw'd, and the ground being frozen, could receive none of the water, which occasioned greater floods than ever were known before. New-Middleford bridge, 13 miles above Woodbury, on Stratford river, was first carried away; when this gentleman crossed Woodbury bridge, which is above 100 yards in length, the water was not up to it by nine feet, but in less than an hour after, the whole bridge was carried away from end to end, and with great difficulty he got to York. Not a bridge on the road, except at Norwalk and E. N. B. Bridge, left standing. In Reading, New-Town, and the large town of Danbury, not a mill or bridge left standing, and supposed to be the same all over the country. In Reading one man had 27 sheep drown'd, and another saw twenty-five floating down the stream at Norwalk, where the saw-mill was entirely destroyed, and the grist mill very much shattered; 6 mills that stood on the stream at Stamford were all carried away, together with a quarter of an acre of ground, and part of a stone store-house, which stood at some distance from the water.

January 22. We have intelligence from Dominica, by a private letter, that a great number of English vessels have arrived there since it being made a free port, particularly from New-England, whereby provisions and lumber of all kinds, were become exceedingly plenty, and meat drugs, which but very few foreign vessels have arrived there, the French in particular doing all they can to prevent their vessels from going to that island, and Martinico kept open to English vessels; in order to induce them to come thither, rather than to Dominica, when they have such commodities on board as suit the French market.

January 26. Wednesday last several Gentlemen arrived here from Quebec, in Canada, in twelve days: They came over the mountains on snow-shoes to Crown Point, and from thence down Lake George on the ice. The river St. Lawrence was not frozen over at Quebec when they came away; and we are told, in the hardest weather seldom is frozen there before the month of February.

Last Monday afternoon the Duke of Cumberland Packet, Capt. Goodridge, failed from this port with the mail for Falmouth.

ANNAPOLIS, (in Maryland) December 26.

His Excellency our governor has been pleased to nominate and commission Messrs Robert Couden and John Clapham, to carry into execution the late act for settling bills of credit, and paying off the public claims.

The public claims, allowed on the journal of accounts, and list of debts, amount to 561,499 lb. of tobacco, and nineteen thousand eight hundred and forty pounds, one shilling and two pence farthing, in money.

Wednesday last the commissioners attended the press, at the printing the bills of credit, of which there are now printed to the amount of upwards of 30,000 Dollars.

January 3. This morning the commissioners for paying of the public claims, deposited about 12,000 lb. of the new bills of credit, in the iron chest at the paper-currency office, being part of the stock appropriated for that purpose.

PORTSMOUTH, (in New-Hampshire) December 26.

Last Thursday night began here, which continued all the next day, a snow storm, in which time a larger quantity fell than has been known for many years at once, which put a stop to all intercourse between town and country; no person pretending to travel, except the post, who all set out on Friday; but only the southern has returned, who informs, that it was with the greatest difficulty he reach'd Boston the fourth day; and set off from thence the next morning, and came to town Wednesday night; which was beyond expectation. The western carrier was a day and a half getting to Exeter, which is but 15 miles, and was obliged to hire pilots to find the way through pastures, the road being filled up.

NEWPORT, (in Rhode-Island) December 29.

We hear from Little Compton, that one Mr. Carr, of that place, was froze to death, in the road, last week.

ANTIGUA, January 7.

To those who are acquainted with Bridgetown it may not be amiss to say, that the late fire there has extended itself downwards to the Cape, and upwards as far as the houses extended towards the church, save three very inconsiderable ones, burning all to the water's edge backwards, and in front the whole way to a street called the Green.

Last week arrived here from England the Generous Trader, Capt. Tovey, with whom came passenger the Hon. Edward Otter to Bayer, Esq; President of this island.

BOSTON, January 8.

Last week we had here extreme cold weather, which entirely froze up our harbour, so that many vessels which were loaded and ready for sailing, are detained thereby; and people travelled to and from the cattle on the ice.

'Tis said the weather last week was colder than has been known here for twenty years past.

The weather being now something moderated, and an easterly wind yesterday, has broke up part of the ice in our harbour; and are in hopes that in a few days the whole will be entirely clear again.

PHILADELPHIA, January 8.

From the very great and unexpected thaw Saturday last, our river is pretty clear of ice; and the vessels at Reedy island, are soon expected up.

From the country we learn, the frosts have been so great, that the roads, in many places, were impassable; and it is feared a great deal of damage is done to the mills, bridges, &c.

And we hear that on Monday night, at the Middle Ferry on Schuylkill, the ice carried away all the boats, broke the ropes, tore the wharff, and did other considerable damage, some of the out-houses being washed away by the water overflowing the banks.

NEW-HAVEN, January 9.

On Wednesday morning of this week, at half after seven o'clock, departed this life, the Rev. Thomas Clap, late President of Yale College, in the 63d year of his age, after about a fortnight's illness. Yesterday his funeral was attended with great decency and solemnity. He presided for almost twenty-seven years as president of Yale College, which station he well adorned, as an able and faithful instructor and steady guide.

SAVANNAH, (in Georgia) January 28.

On Thursday last his Excellency the Governor, who, by his Majesty's royal commission, has the sole right and power of collating to all benefices in this province, was pleased to collate the Rev. Mr. Samuel Frink to the benefice of Christ-Church, void by the death of the late very worthy incumbent Mr. Zouberbuhler; and his Excellency on the same day, inducted Mr. Frink into the real and actual possession of the rectory of the said church, with all its appurtenances.

Denys Rolle, Esq; arrived in a snow from England, about ten days ago, at his settlement in East-Florida.

CHARLES-TOWN, February 16, 1767.

LAST Monday night died, Mr. CALEB LLOYD, Merchant, and co-partner with Mr. JOHN NEALE. This gentleman's character and disposition were so amiable, that his friends sustain a particular loss in his death, which would have been generally lamented, but for the prejudices that were conceived against him, upon his being unhappily appointed Distributor of Stamps in this province, under the late act of the British Parliament that proved so universally odious and detestable to all America, even where a suspension of its operation could not be procured.

Tuesday last the hon. Robert Catherwood, Esq; surgeon to the hospitals and garisons in East-Florida, and a member of his Majesty's council for that province, was married to Miss Jane Chads, (sister to a Captain in his Majesty's navy) lately arrived here from England.

A CARGO of fine Honduras MOHOGANY and LOGWOOD, just arrived in Capt. Chace, from the Bay; thirty tons of FUSTIC, and a few hogheads of Windward Island RUM, to be sold reasonably, by DAVID STODDARD, & Co.

To be Sold,

Very reasonable by the subscriber,

Two very valuable plantations, adjoining each other in St. Peter's parish, one containing eight hundred and sixty-nine acres, on which is a Dutch roofed house, framed of choice yellow pine, a good corn house and other out-houses; and the other containing eight hundred and thirty-four acres, on which is a barn, overfrier's house, corn house and other buildings. About one hundred and ninety acres of the first mentioned tract, and about seventy acres of the other tract is now cleared and under good fence. The said plantation is inferior to none in the province for rice, corn and indigo. Any person inclinable to purchase the whole, will have the advantage of a large reservoir of water, on which a machine for pounding of rice may be erected, or any person inclinable to purchase either of the above tracts separate, may treat with me at my plantation in Prince William parish.

J. M. CORNELIUS DUPONT.

To be sold in small tracts,

ABOUT twelve thousand acres of land, on the head of Cambahee river, known by the name of the Salcahar barony, now the property of Sir William Baker, Brice Fisher, and Nicholas Linwood, Esqrs. of London. The plat of said barony is now in the hands of Mr. Owen Bowen, who has directions to lay it out in tracts; it is allowed to be exceeding fine swamp, with a sufficiency of very good high land on each side, proper for corn and indigo, on which a common flour settlement may be made. Also,

A part of the barony in Granville county, known by the name of Jasper's barony, adjoining the lands of Colonel Daniel Heyward, and other settlements on the Euhaw: The plat may now be seen in the hands of William Maine. Credit will be given for the above lands, the purchasers paying interest and giving security to

J. M. PAUL TRAPIER, Attorney for Sir Wm. Baker, &c.

TO BE SOLD,

At JOSEPH BALL, junr's.

SUGAR WARE HOUSE

In TRADD-STREET, (for Cash):

AS good single refined LOAF SUGAR as any imported, a Four Shillings and Six Pence a pound by the hundred weight, and Five Shillings by the single loaf. About the middle of January, he will likewise have very good single BAYARD LOAF SUGAR to sell, at Three Shilling and Six Pence a pound, by the loaf.

SHEED & WHITE,

(Having declined the Dry Goods Business)

ACQUAINT all persons indebted to them, either by bond, note, or book debts, that unless they are discharged by the first day of March next, they will, without distinction, be put into the hands of an attorney at law, to be recovered; it is therefore hoped every person concerned may pay a due regard to this timely notice, as it will be a means of preventing that trouble which otherwise unavoidably must ensue. Their counting house is kept on the Bay, next door to Messrs. Brailford & Chapman's, where constant attendance will be given for settling and closing their affairs.

N. B. They have to sell, superfine, flour in barrels and half barrels; water, milk and butter bread in kegs; Haynes's best double beer in barrels; a few hogheads of Northward rum, & a parcel of high and low back'd Windsor chairs; all which they have just imported in the Philadelphia Packet, John Harrison, master, from Philadelphia, and which, with a few casks of choice LONDON PORTER, they will sell, on very moderate terms, for cash or short credit.

ALL persons indebted to the estate of Francis Stuart, late of Beaufort, merchant, deceased, either by bond, note, or open account, are desired to make immediate payment of the same, and those to whom the said estate is indebted to bring in their accounts properly attested to

HENRY STUART, } Administrators.
LEWIS REEVE, }

N. B. It is above nine months since the deceased Francis Stuart advertised his having declined business in Beaufort, and his desire of closing his affairs there; at the same time requesting those indebted to him to settle their accounts with him; such as paid no regard to that advertisement, need not be surprised if they find themselves under the necessity of settling with an attorney at law, should they prove equally regardless of this, as it would be unreasonable for them to expect the same indulgence from administrators that they possibly might have had from the deceased, when alive.

TO BE SOLD,

And may be entered on by the first of January,

A VALUABLE plantation, or tract of land in Prince William parish, containing four hundred acres. One hundred acres tupelo swamp, about eighty flat clay land, and the remainder fit for corn or indigo; bounded to the south on col. Thomas Middleton, to the west on Godin Guerd, to the north on the estate of Edmund Barnes, and to the east on Robert Philip's land; whereon is a large barn, machine, and other out houses. Whoever inclines to purchase, may treat with the subscriber at his plantation, in Prince William parish, near Port-Royal ferry.

BENJAMIN GARDEN.

HAWES, & Comp.

COACH-MAKERS.

RETURN their most hearty and sincere thanks, to the GENTLEMEN and LADIES of this province, for the favours they have been pleased to confer on them; and flatter themselves with a continuance of their custom, if they shall appear to have merited the encouragement that has been given them.

THEY can now ADVERTISE THE PUBLIC, That they have brought ALL BRANCHES of the COACH-MAKING BUSINESS to such perfection, as not to be exceeded in quality of the materials, goodness of the work, or neatness, by any importation; so that they can make and finish, without any assistance out of their own Shop, all sorts of COACHES, CHARIOTS, PHAETONS, POSTCHAISES, LANDAUS, CURRICLES, SEDANS, SLEIGHS, &c. in the most complete and elegant manner, and afford them at more REASONABLE rates than they can be imported.

Whether the public may think them worthy, or not, of particular encouragement, for being the FIRST who have brought those branches of business to such perfection in this province, (to attain which they have been at no inconsiderable expence in procuring men and materials) yet they hope, their PROPOSALS will have some weight, in giving them opportunities to prove what they have offered to undertake, which are, TO EXECUTE EQUAL TO ANY PATTERN FROM ENGLAND, DRAUGHT, ON ORDER THAT SHALL BE GIVEN THEM, or they will not desire those who bespeak the work to take it when done.

SAID HAWES, & Comp.

Have to dispose of, on the most reasonable Terms,

TWO second hand POST-CHAISES, a FAMILY COACH, and several CHAIRS, &c.

ALL persons indebted to BENJAMIN HAWES, before the commencement of the above Co partnership, are requested to make payment or settle, as so business can be well carried on without money; and those to whom he is indebted, are desired to bring in their accounts.

[3. M.]

The WHARVES & STORES
